

THE ANCIENT RELIGION OF THE GODDESS

With

International Priestess of the Goddess

In pre-historic and early historic periods of human development, religions existed in which people revered their supreme creator as female. The Great Goddess – the Divine Ancestress – had been worshipped from the beginning of the Neolithic Period around 7000BCE until the closing of the last Goddess Temples around 500ACE. Some authorities extend that period into the Upper Palaeolithic age 25000BCE.

What had life been like for women who lived in a society that venerated the wise and valiant female Creator?

During this workshop, we shall explore that question, by looking at the Ancient Religion of the Goddess. This is an educational workshop, so come prepared to go on a learning journey which will change how you view the world and yourself.
